SUMMER SCHOOL

FOOD AND DRINK STUDIES

Since 2003, the IEHCA's SUMMER SCHOOL has served as a key platform for the discussion of new research in Food & Drink Studies. As the previous issues, the 2022 issue will survey the field more broadly. What are the major interests and issues currently explored in anthropology, classics, gastronomy, history, literary studies, sociology and Food Sciences? Which general trends have emerged over recent years? How can our understanding be further advanced in the future? Leading specialists from different backgrounds will survey such questions with reference to their current research and graduate students are invited to present their ongoing projects to an international audience in a stimulating and supportive atmosphere.
